

# Learning Disabilities Awareness Month

## October 2019

### Week One: Connect & Network

It's the first week of Learning Disabilities Awareness Month! Learning Disabilities Association of America (LDA) is working hard this month to shine the spotlight on learning disabilities. **Our focus this week is on connecting and networking with both LDA and your peers** – whether they are educators of children with learning disabilities, parents of children and adults with learning disabilities, adults with learning disabilities or professionals who serve those with learning disabilities. It's important during this month to focus less on the disabilities aspect and focus more on the incredible abilities and achievements of those with Learning Disabilities – we hope you'll join us!
