

Learning Disabilities Awareness Month

October 2019

Week Four: Advocate

It's the 4th week of Learning Disabilities Awareness Month! Learning Disabilities Association of America (LDA) is working hard this month to shine the spotlight on learning disabilities.

Week 4 is a week of advocacy! Advocacy is the act or process of supporting a cause. Show you're #withLDA and your support for individuals with learning disabilities a little each day through one small act of #advocacyforLD during the week of October 20-26. Help us prove that individuals with learning disabilities matter!

At the end of the week, be sure to share a post with us on how you've advocated for the 1 in 5 with Learning Disabilities this week.

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
